

**We protect everything that matters  
to you!**

# About us

We are dedicated to protecting your goals, assets, values and people from illegal actions and hostile acts. We are here to assist you with all your security and protection needs.

Security services for objectives,  
goods and valuables

Security services for the  
transport of goods of particular  
importance.

Specialized personal protection  
services (bodyguard)

# Our services

Our guarding and protection equipment and expertise is offered for all types of residential, commercial and industrial buildings, as well as for private events and special transports.

## **Audit & Consulting**

We develop the security plan in accordance with the provisions in force. It will include: the characteristics of the objective, the rules of access, the number of stations, their recording and location, the personnel required for guarding, the arrangements, installations and technical means of guarding and alarming, the connection and cooperation with other bodies with guarding duties.

## **Equipment & Monitoring**

We equip the objective with the necessary technical means, in accordance with the security plan. After installation, we also carry out the mandatory periodic checks and possible changes for burglar alarm components and systems.

# Our services

## Security services

We ensure the protection of the property against unauthorized access or abusive occupation, theft, destruction, fire, as well as other actions producing material damage.

## Specialized transport

We organize and provide security for land, water or air transport of goods of particular importance.

## Bodyguard

We ensure the protection of life and bodily integrity, health and property of the person under protection. We also provide protocol services such as: transport, translator, rapid evacuation plan.
